## Commissioner for Patents

The reply filed on 01/09/2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicants elected the species angiogenesis. However, Applicants were required under 35 U.S.C. 121 to elect a single disclosed species from among the following patentably distinct species: treatment of osteoporosis, arthrosis, skin, mucous membranes, epithelium, or teeth. Claims 6-7 and 10-15 were generic. Angiogenesis is generic to the treatment of osteoporosis, arthrosis, skin, mucous membranes, epithelium, or teeth. Applicants acknowledge that claims 6-7, 10-11 and 14-15 encompass angiogenesis. The treatment of bone is generic to osteoporosis. The treatment of cartilage is generic to arthrosis. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
